Figure 1. Table Page

This table concluding many reports that decoded by json. You can see titles and authors of reports after opening this page. I add an index list on this page. You can jump into specific section by clicking special year instead of scrolling your mouse for a long time. After clicking cell of table, you will enter a report details page.

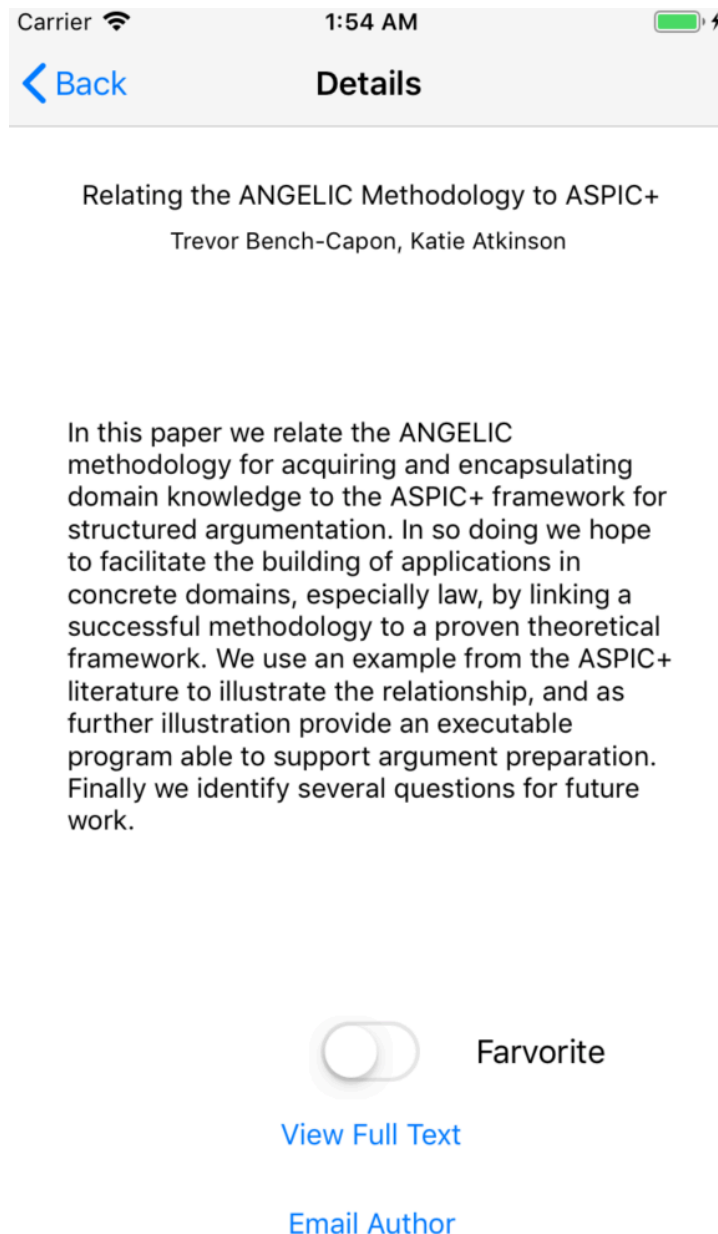

Figure 2. A Report Page

You can see details of chosed report, including title, authors and abstract. If you want to view full report, you can click View Full Text button and you can see full report on safari. If you want to email author, you can click Email Author button and then email address will appear on this page if it is availble. In addition, you can save this report as favourite by turning swith button on. Finally, you can back table page by clicking Back button on the top left
